DEVOID OF ORATORY

IOWA REPUBLICAN CONVENTION
PLACES IN NOMINATION A
STATE TICKET.

COMMITTEE FIGHTS IT OUT

Controversy Over the Tariff and Trust

Utterances of the Platform Not

Carried to the Floor of the Con-

vention—Resolutions Adopted by a

Unanimous Vote—All But Three

Offices Filled by Acclamation.

Des Moines, Ia., July 31.—The Republican state convention named the following ticket:

Secretary of state, W. B. Martin, Adair county; auditor of state, B. F. Carroll, Davis county; treasurer of state, Gilbert S. Gilbertson, Winnebago county; attorney general, C. W. Mullan, Blackhawk county; judge of supreme court, Scott M. Ladd, O'Brien county; judge of supreme court (short term), Charles A. Bishop, Polk county; clerk supreme court, John C. Crockett, Hardin county; supreme court reporter, W. W. Cornwall, Clay county; railroad commissioner, E. A. Lawson, Bremer.

Nearly 1,100 delegates attended the convention, practically full delegations representing every county.

The only controversy was over the tariff and trust utterances of the platform and that was settled in the committee on resolutions in favor of a reiteration of last year's utterances with an addition to the trust plank congratulating Roosevelt for the inauguration of judicial proceedings to enforce the anti-trust laws.

With the exception of the address of the temporary chairman the convention was devoid of oratory. No nominating speeches were made and the notable visitors, who included the entire Iowa delegation in congress, were not called upon. Chairman Spencer of the state central committee called the convention to order at 11 a. m. and after the invocation by Rev. A. B. Marshall of the First Presbyterian church, introduced Congressman Walter I. Smith of Council Bluffs as temporary chairman.

At the close of Chairman Smith's address the committees were announced and the convention adjourned until 2 p. m.

The meeting of the committee on resolutions developed the expected controversy over reaffirming that clause of last year's platform which declared for "any modification of the tariff schedules that may be required to prevent their affording shelter to monopoly."

Committee Fights Over Platform.

Judge H. M. Townner of the Eighth district and James C. Davis of the First district led the fight for the elimination of this clause, each suggesting a substitute and each supporting his position in extended remarks. Two roll calls were had, there being two votes for modification of the language on one and on the other four votes in favor of the elimination of the clause. At the close of the session Judge Townner asked that the chairman in presenting the platform, report it as recommended by a majority of the committee. Objection was made to this by Colonel S. W. French, Secretary Wilson and George E. Roberts and the suggestion was withdrawn.

The debate was a repetition of that which has been carried on in the Iowa press for some months. Messrs. Townner and Davis insisted that the objectionable plank in last year's platform was virtually a plea of guilty to the Democratic charge that the tariff is the parent of trusts. In reply W. B. Berry of the Seventh district, George E. Roberts and others insisted that the language expressed the exact view of a large majority of the party, that it had stood the test of one campaign and that its elimination at this time would make it an issue in this year's campaign, put the party on the defensive and lead the people to believe that the party is changing front on the trust question.

The opening of the afternoon proceedings was delayed an hour while the credentials committee completed its work. There were no contests. E. C. Roach of Rock Rapids was recommended for permanent chairman and the committee's action was endorsed. N. E. Kendall of the Sixth district, chairman of the committee on resolutions, reported the platform.

Without a Dissenting Vote.

The platform was adopted without delay and without a dissenting vote.

The resolutions congratulate the people upon the prosperity that pervades every part of the country; deplore the untimely death of our great and beloved leader, William McKinley; pledge fealty anew to the public policies with which his administration was identified; declare confidence in Roosevelt; approve the work of the Fifty-seventh congress; express pride in the good conduct of the soldiers in the Philippines; endorse the historic policy of protection; declare against trusts; endorse the administration of Governor Cummins.

Messrs. Martin, Gilbertson, Mullan and Ladd were renominated by acclamation. Judge Bishop, who is now on the supreme bench by appointment, and B. F. Carroll had no opposition. Five ballots were required to nominate a candidate for clerk of the supreme court. Six candidates

were in the field, including C. T. Jones, the present incumbent. Mr. Crockett gained steadily and won on the fifth ballot.

E. A. Dawson was renominated for railroad commissioner on the second ballot, his competitors being W. S. Ketchum of Marshall county and W. Blakemore of Taylor county.

W. W. Cornwall was nominated for supreme court reporter on the first ballot, receiving 641½ votes to 464½ for B. I. Salinger, the present incumbent of the office, and 137 for J. H. Williams of Story county.

HEAVY ELECTRICAL STORM.

Waterspout Washes Out Railway Tracks in Nebraska.

Herman, Neb., July 31.—A waterspout northwest of Herman caused a washout of the Chicago, Minneapolis and Omaha road four miles north of here. About 1,000 feet of track are washed away and the wind moved a dwelling house off its foundation near the washout.

The rain was a downpour at this place for about forty minutes. Some hail fell, but not enough to damage crops.

Reports from other points of the state indicate that the whole state was visited by a heavy electrical storm. At Omaha three houses were struck by lightning, but slight damage was done. No damage to crops from hail is reported, although much hail fell.

THIS IS DIFFERENT.

Crops in Alabama Almost Completely Destroyed by Drought.

Montgomery, Ala., July 31.—Reports received by the weather bureau indicate a serious condition of drought in Alabama. Less rain has fallen in the state during the past three months than in any other similar period since 1829. Crops in many sections have been almost completely destroyed. In the middle western counties, which are large producers of cotton, the ground has not been thoroughly wet since April. Early corn is reported to have been damaged beyond recovery.

Mexican Train Robbers Caught.

El Paso, Tex., July 31.—News has reached here of the capture of one of the three Mexican Central train robbers who held up the Wells Fargo express car just out of Bermejo on July 23 and got away with \$50,000. The man was captured at Napiel, Mex., and has been identified as Bell Taylor, who is charged with holding up the Santa Fe train at Coleman Junction, Tex., and killed one man. Taylor has surrendered \$15,000 of express company's money.

Boy Killed in a Sand Pit.

St. Paul, July 31.—Joseph Kovarik, eight years old, was smothered to death beneath an avalanche of dirt in a sand pit at Palace, Jefferson and Pleasant avenues. When the rescuers dug him out it was found that he was but one foot beneath the surface of the sand, but his legs were much deeper and he could not crawl out.

The Dead Sea.

The daily average of 6,500,000 tons of water is received into the Dead sea from the Jordan. There is no outlet, and the level is kept down by evaporation only, which is very rapid because of the intense heat, the dry atmosphere and the dry winds which are constantly blowing down from the gorges between the mountains.

Good Reason.

"I wonder," began the man with the investigating mania, "what makes babies cry?" "Probably," butted in the practical fellow, "contemplation of some of the things they're in danger of being like when they grow up."—Baltimore News.

LOSS OF LIFE FEARED.

Flood Situation in Texas Continues to Grow Worse.

Dallas, Tex., July 31.—A report has reached here from Hillsboro that between 400 and 500 men who were chopping wood in the bottom lands between Richland and Post Oak creeks have not been heard from since the heavy rains of last Saturday and it is feared that some of them were drowned. An effort is being made to get into communication with the locality.

The flood conditions in the Brazos valley continue to grow worse. The river is again rising about Waco and the crest of the flood was only a short distance below that point during the morning. The rains have damaged the cotton crop materially. The present crop had promised to be the largest in the history of the state, but boll worms are developing rapidly and farmers are becoming apprehensive.

Advices from other parts of the state do not show any improvement in the situation. The long continued rains have softened the railroad beds in many places, where trouble has never before been experienced. The International and Great Northern entering San Antonio from the west is almost completely tied up and the Missouri, Kansas and Texas road has abandoned that route for its fast trains. The Missouri, Kansas and Texas is washed out between Dallas and Greenville and trains are being detoured via Farmersville. The water is over the track at Elmo on the Texas and Pacific east of Dallas, but travel is not interrupted. There was a veritable cloudburst at Greenville. Trouble on the Santa Fe was confined to the Little river near Camerton and the main line of the Houston and Texas Central seems to have suffered the least of any of the roads.

Five lives were lost and hundreds of head of cattle drowned in the flood forty miles southeast of Austin.

Five bridges in two counties are said to have been swept away. The storm in Plum creek, struck the Missouri, Kansas and Texas railway with all its force, washing away nearly a mile of track.

STORMS IN WISCONSIN.

Wind, Rain and Lightning Play Havoc With Buildings and Crops.

Milwaukee, Wis., July 31.—Northern Wisconsin was visited by a severe rain storm. Several places were struck by lightning and many cellars were flooded. Storm specialists to the Sentinel are as follows:

Marquette, Wis., July 31.—A heavy wind and rain storm passed over here, flooding the entire country. Five different places were struck by lightning, but no serious damage was done.

Oconto, Wis., July 31.—A severe rain and thunder storm passed over this section about noon. Great damage was done to crops. Telephone and fire alarm service was badly crippled.

Oshkosh, Wis., July 31.—Winnebago county was visited by a severe electrical storm. A number of buildings are reported as having been struck in the surrounding country. A barn on the county poor farm was destroyed with a large amount of hay and grain. A number of cellars were flooded.

La Crosse, Wis., July 31.—One of the most destructive storms in years is raging here. Railways have been washed out in all directions and telegraphic communication practically paralyzed. Damage to crops will reach many thousands of dollars.

A tornado north of here did great damage to farm property, many houses and barns being unroofed. The storm was general over Western Wisconsin.

When we deserve it, we don't mind abuse. It makes us careful. But the trouble is we never agree with our critics as to when we deserve it.—Atchison Globe.

Des Moines, Ia., July 31.—The Re-
publican state convention named the

byterian church, introduced Congress-
man Walter I. Smith of Council Bluffs
as temporary chairman.

At the close of Chairman Smith's

d and the convention adjourned un-
til 2 p. m.

The meeting of the committee on
resolutions developed the expected
controversy over reaffirming that
clause of last year's platform which
declared for "any modification of the

elimination of this clause, each sug-
gesting a substitute and each sup-
porting his position in extended re-
marks. Two roll calls were had,
there being two votes for modifica-
tion of the language on one and on the
other four votes in favor of the eli-
mination of the clause. At the close
of the session Judge Townner asked
that the chairman in presenting the
platform, report it as recommended by
a majority of the committee. Objec-
tion was made to this by Colonel S.
W. French, Secretary Wilson and
George E. Roberts and the suggestion
was withdrawn.

The debate was a repetition of that
which has been carried on in the
Iowa press for some months. Messrs.

paign and that its elimination at this
time would make it an issue in this
year's campaign, put the party on the
defensive and lead the people to be-
lieve that the party is changing front
on the trust question.

The opening of the afternoon pro-
ceedings was delayed an hour while
the credentials committee completed
its work. There were no contests.
E. C. Roach of Rock Rapids was re-
commended for permanent chair-
man and the committee's action was
endorsed. N. E. Kendall of the Sixth
district, chairman of the committee
on resolutions, reported the platform.

Without a Dissenting Vote.

The platform was adopted without
delay and without a dissenting vote.

The resolutions congratulate the
people upon the prosperity that per-
vades every part of the country; de-
plore the untimely death of our great
and beloved leader, William McKin-
ley; pledge fealty anew to the public
policies with which his administra-

in Roosevelt; approve the work of the
Fifty-seventh congress; express pride
in the good conduct of the soldiers in
the Philippines; endorse the historic
policy of protection; declare against
trusts; endorse the administration of
Governor Cummins.

AN EXCITING FUNERAL.

Rioting in New York During a Jewish Procession.

New York, July 31.—The funeral of the late Chief Rabbi Jacob Joseph, head of the orthodox Hebrews of the United States, which was held here during the day, was the occasion of one of the most remarkable demonstrations ever witnessed in this city and led to a collision between the masses of Jewish mourners and the police. The streets were packed with thousands of Hebrews, the stores were generally closed and every point of vantage along the route taken by the funeral procession to the different synagogues was crowded. When the procession was passing the printing press factory of R. Hoe & Co. on Grand street, on its way to the cemetery in Brooklyn, the employees of the factory emptied pails of water from the windows of an upper floor onto the spectators massed upon the sidewalk. Pail after pail, it was said, was emptied upon the throng, which shouted and struggled and stampeded in vain to escape. Then overalls and clothing soaked in water came down from above, and even tools, scraps of steel, bolts and a dead cat.

The angry populace, most of whom were Hebrews, retaliated by throwing back into the factory windows the missiles that fell on them. They also gathered up stones and sticks and in a few minutes there was scarcely a whole pane of glass on the Grand street side of the factory. Then some one in the factory turned on a hose and played it indiscriminately all over the funeral procession. At one time as many as five streams were playing on the crowd. Drivers of mourning carriages whipped up their horses, trampling over citizens, and the stronger men trampled women and children under foot in their efforts to escape.

The police in the meantime had taken a hand in the trouble and were clubbing the people right and left. They were, however, unable to cope with the crowd and the reserves of half a dozen precincts were dispatched to the scene. It was more than half an hour before order was restored and the streets in the vicinity of the factory cleared. A number of arrests were made, among them being several employees of the Hoe company.

SOLID FOR ROOSEVELT.

Senator Platt Says He Will Have the New York Delegation.

Oyster Bay, July 31.—President Roosevelt will have a solid delegation from New York state to the next Republican national convention.

This statement was made by Senator Thomas C. Platt of New York, after a conference with the president at Sagamore Hill.

During the two hours conference, both national and New York state politics were discussed, the discussion quite naturally revolving principally around state affairs. Senator Platt briefly, but comprehensively, reviewed the political situation in both the national and state fields. He already had declared himself to be a supporter of Mr. Roosevelt for the presidential nomination in 1904, and he expressed the opinion that, barring serious contingencies, the president would be named to succeed himself. It was in this connection that he made the statement which is quoted at the beginning of this dispatch. Mr. Platt assured Mr. Roosevelt that perfect harmony existed among the leaders and among the rank and file of the Republican party in New York, and that without debate, the entire Republican ticket would be elected this fall.

PRESIDENT ADAMS' WILL.

Bulk of His Estate Finally Goes to Wisconsin University.

Redlands, Cal., July 31.—The will of the late Charles Kendall Adams, former president of the University of Wisconsin, who died Saturday, makes small bequests to relatives, May Stanton and Charles Adams Stanton of Neenah, Wis., and to John C. Shedd of Colorado Springs. The bulk of the estate goes to his widow and is placed in trust for the term of her life. The property is then to go to the University of Wisconsin to be maintained as a separate fund, known as the President Adams' fellowship fund. The will provides the manner in which the fund shall be invested and the creating out of the income therefrom fifteen fellowships in the sum of \$10,000 each. No estimate of the value of the estate is made, most of the property being in Wisconsin.

THREE YOUNG LADIES DROWN.

Sudden Squall Capsizes Their Boat on a Lake Near St. Peter, Minn.

Mankato, Minn., July 31.—Three young ladies were drowned at Lake Jefferson, near St. Peter, while boat riding. They were Mabel Wells of Monticello, and Marva Pye and Eva Fasken of Fairbault. Charles Bingham and N. Hansen of St. Paul were with the ladies in the boat, and swam ashore. The girls sank in forty feet of water.

The accident happened thirty yards from shore. A storm came up suddenly and the boat capsized. Efforts to recover the bodies have been without result.

St. Paul Man Elected President.

Detroit, Mich., July 31.—National Association of Supervisors of State Banks closed its organizing convention at the Hotel Cadillac with the election of the following officers: President, S. T. Johnson, St. Paul, Minn.; first vice president, George L. Maltz, Detroit; second vice president, A. F. Leclair, Aberdeen, S. D.; third vice president, F. D. Kilburn, Albany, N. Y.; secretary, F. D. Bergh, Madison, Wis.; treasurer, F. A. Bennett, Sioux City, Ia.; chairman of executive committee, F. E. Timberlake, Augusta, Me.

King Edward Able to Walk Alone.

London, July 31.—King Edward's progress continues to be in every way satisfactory. During the day he slowly paced the deck of the royal yacht Victoria and Albert without any assistance and the exercise is reported to have done him good.

A RESTORATION BEAU.

Daily Programme of a Dandy in England During Charles' Time.

The history of an ordinary day of a restoration beau was something like this: From about 10 till 12 he received visitors in his sleeping chamber, where he lay in state, with his periwig, thickly powdered, lying beside him on the coverlet. Near at hand, on his dressing table, the curious visitor might have noticed some little volumes of amatory verse, a caulster of Lisbon or Spanish snuff, a smelling bottle and perhaps a few fashionable trinkets.

As soon as he deemed proper the beau arose and with incredible difficulty proceeded to put on all his charms, to perfume his garments, to soak his hands in washes for the sake of producing whiteness and delicacy, to tinge his cheeks with carminative in order to give them that gentle blush which nature had denied them, to arrange a number of patches upon his face so as to produce the effect of moles and dimples, to dip his pocket handkerchief in rosewater and to powder his linen so as to banish from it the smell of soap, to consume a quarter of an hour in the attempt to fasten his cravat, so long again in the endeavor to adjust his wig and to "cock" his hat, as long again in the contemplation of his charms in the looking glass and as long again in the practice of such smiles as would display to the best advantage the ivory whiteness of his teeth—these were the processes through which he who desired to figure as a beau of the first magnitude was compelled in that age to pass.

The character of the beau, so far as his outward and personal appearance was concerned, was now complete, and as in those days fashionable gentlemen used their legs to a much less extent than they do now our imaginary beau would have directed his valet to order a sedan chair without delay. Into this he stepped and was borne to the fashionable haunt—the mall in St. James park or perhaps to the more ceremonious parade in Hyde park—where, like a butterfly, he delighted to flutter in the train of some jilting beauty, who gloried in nothing so much as "an equipage of fools" and who was perfectly willing for the nonce to furnish him with an excuse for toasting her in a tavern at night.—Gentleman's Magazine.

APHORISMS.

You never lift up a life without being yourself lifted up.—Emerson.

To ease another's heartache is to forget one's own.—Abraham Lincoln.

It is ever true that he who does nothing for others does nothing for himself.—Goethe.

'Tis far better to love and be poor than be rich with an empty heart.—Lewis Morris.

God doesn't care for what is on the outside; he cares for what is inside.—Rev. M. Babcock.

Fruitless is sorrow for having done amiss if it issue not in a resolution to do so no more.—Bishop Horne.

The next time you are discouraged just try encouraging some one else and see if it will not cheer you.—J. R. Miller.

Sin is never at a stay. If we do not retreat from it, we shall advance in it, and the farther on we go the more we have to come back.—Barrow.

Kind looks, kind words, kind acts and warm hand shakes—these are secondary means of grace when men are in trouble and are fighting their unseen battles.—Dr. John Hall.

Queen Elizabeth's Amulet.

Queen Elizabeth during her last illness wore around her neck a charm made of gold which had been bequeathed her by an old woman in Wales, who declared that so long as the queen wore it she would never be ill. The amulet, as was generally the case, proved of no avail, and Elizabeth, notwithstanding her faith in the charm, not only sickened, but died. During the plague in London people wore amulets to keep off the dread destroyer. Amulets of arsenic were worn near the heart. Quills of quicksilver were hung around the neck, and also the powder of toads.

The Absentminded Professor.

At a session of the German reichstag an absentminded member, Herr Wichmann, created no little amusement. He was calling the roll, and upon reaching his own name he paused for a response. Naturally none came. Then he called the name more loudly, waited a few seconds and roared it out at the top of his voice. The laughter of his colleagues finally aroused him to a sense of the ludicrousness of his act, and he joined in the general hilarity.

DISPUTE OVER
WIDTH OF STREET
Contractor Paving Laurel Street
at a Different Width than
Specified by Engineer.

A QUESTION OF LEGALITY.
City Engineer Says that He Did
Not Instruct to have
it Done.

There is a rather bad mixup in the matter of paving Laurel street, and before the strings are straightened out there is liable to be some warm sessions of the city council. The misunderstanding seems to be over the width of the street from curb to curb, and there are four contending forces in the mixup. There is the city engineer, city attorney, the council as a whole and the street committee, and each is trying to find out where the other is at and to what extent their authority extends under the provisions of the city charter.

The specifications for the grading, curbing and paving of the street as prepared by City Engineer Whiteley and as adopted by the city council, provided for a street 60 feet wide between Fifth and Fourth streets and 40 feet wide from Fourth to the wagon bridge across the Mississippi river. It seems after the work of putting the curb in had commenced that some difficulty was experienced with the sixty feet width, the main obstacle being the telephone poles which set inside the curb and which would all have to be moved. Engineer Whiteley states that he took the matter up with the members of the street committee and they decided that it would be best to make the street fifty feet all the way through from Fifth street to the bridge, but they went to the city attorney and asked his advice as to their legal rights in the matter; whether they had a right to change the specifications adopted by the council. The city engineer claims that they were advised by the city attorney that such a procedure would be legal, but that he never directed the engineer or the street committee to make the change.

The committee it is understood, or someone, decided to make another change and yesterday got together and thought best to make the street fifty feet from Fifth to Third and forty feet from that point to the bridge.

It is stated that Alderman Judd Wright is up in arms over the matter and that he proposes to see whether the committee had a right to change the specifications in this manner.

The city attorney was seen this morning and he stated that he never told anyone to make the change; and he further stated that in his opinion the committee had no right whatever to make the change. The street committee is composed of Aldermen Gardner, Fogelstrom, Rowley and Halladay.

In all probability a special meeting of the city council will be held to straighten out the ruffled edges of the curb stone matter.

We give you a discount of 25 per cent on all new summer orders and fur repairing. All our work is guaranteed. Northwestern Fur Co. established in 1896. St. Cloud, Minn.

J. BURNS ARRESTED.

Maurice Blodin Brings a Charge of Assault
In the First Degree and he is Taken
Before Judge Blewitt.

There was a fracas at which might have resulted disastrously to Maurice Blodin but for the interference of some of those who were standing near by. J. Burns it is claimed went into the saloon drunk and he and Blodin came together. Burns is said to have got the worst of it, and it is claimed he went out and got a gun and went back after Blodin. He is said to have threatened to kill him.

Burns was arrested and taken to the city jail by Officer Preston and this afternoon was taken before Judge Blewitt on the charge of assault in the first degree. The hearing was set for Saturday afternoon at 2 o'clock, Burns being admitted to bail in the sum of \$300.

Sam Nash and "Topsy" Tift were up charged with conducting a house of ill-fame. Both plead not guilty and their hearing was set for Saturday afternoon, bail being fixed at \$25 in each case.

A SERIOUS MATTER.

Railroads That Tap the Bountiful Harvest
Fields Need all the Cars That
They can get Together.

One of the serious problems connected with the handling of the bountiful crop that the Northwest promises to yield this year, barring accidents, will be to get a supply of cars for carrying the grain from the farming districts to the cities. The railroads that carry grain are all better equipped than they have ever been before, but they are also all doing a larger business in all lines than they have ever done before. There is no sign that general business will let up temporarily while the grain crops are being handled, and yet, if it does not, the railroad men say there will be considerable difficulty in procuring cars enough to handle the grain.

Temporary car famines during the grain-hauling seasons are frequent in ordinary years, when business is only fair, but this year, with business booming in all lines and the prospect for the best crop since 1895, the problem is likely to be more puzzling than ever. Railroad men are beginning to cast their eyes about and consider the coming grain traffic when they send cars out. They will hardly be able to neglect the regular lines of business, yet the grain must be handled. The life of the employees in the operating departments of the roads that reach the grain country is likely to be full of interest and excitement for the next few months.

Northern Pacific Land Sales.

The annual report of the Northern Pacific land department, which has just been issued, shows the results of the wonderful movement of settlers into the northwest from other states last spring. The increase in sales of all varieties of Northern Pacific lands, including timber, agricultural and mineral lands, was nearly 1,000,000 acres for the fiscal year ending June 30, 1902. The total number of acres sold was 4,380,000, an increase of 978,000 acres for the year.

This is looked upon as exceedingly satisfactory. There were no single sales of immense proportions, as there were during the fiscal year of 1901. The dealings of 1902 were marked by individual purchases by actual settlers. The Northern Pacific has not attempted to crowd land prices, believing that every acre sold now, even at something of a sacrifice, will yield golden returns in the future, through the traffic it yields.

The sales in Minnesota for 1902 were much larger than during the preceding year, reaching 295,000 acres, an increase of nearly 240,000 acres. The Northern Pacific sold 1,818,000 acres in North Dakota, 781,000 acres in Montana, 94,000 acres in Idaho, 1,388,000 acres in Washington and about 4,500 acres in Oregon. The annual report for the preceding year shows there remained unsold on June 30, 1901, about 20,261,000 acres.

Deducting the sales of the year just closed shows that the company still has approximately 15,881,000 acres. An accurate estimate is impossible for the reason many surveys have never been completed.

In many cases settlers took immediate possession of the lands sold, and will commence preparing their lands for next season's crops immediately.

BRAINERD LOST BY ONE SCORE.

The Fargo Bunch Gets a Score in the Ninth Inning--Boys Return Home Today.

The Brainerd base ball team returned this morning from Fargo, where it had been intended to play a series of three games with the team of that city, but Fargo had to play one game off with Crookston and Pitcher Bemis was slightly injured in the hand while trying to catch a fly and could not have pitched today anyway.

The game yesterday between the two teams resulted in a victory for Fargo, by a score of 1 to 0.

Kilroy was in the box for Brainerd again yesterday and allowed the Fargoites but six hits. Brainerd got five hits off Reilly who was in the box for Fargo. In yesterday's game Englebreton got two hits and the boys all had a pretty fair eye on. The attendance was something awful there being but 105 people present. Talk about good base ball towns, there are but one or two in the north, and Brainerd is one of them.

The following effusion regarding the first game is taken from the Fargo Forum:

"With a pitcher as catcher and only one regular outfielder in the game Fargo was defeated yesterday afternoon by Brainerd. The game was rather uninteresting and despite the closeness of the score up to the ninth inning there was little excitement. In the ninth with the score 2 to 1 in Fargo's favor, the visitors fell into Richardson and five hits with an error and a passed ball, netted five runs, four of which were earned. Richardson had pitched nice ball for the first eight innings. Kilroy for the visitors, did some high class twirling. He allowed only four safe hits, two of which were made by Robertson. The Brainerd boys injected considerable more enthusiasm into their work than the locals and were elated over the victory. The only features of the game were especially fine catches by Read and Spelliey. Sullivan and Spelliey, formerly with Winnipeg, played with Brainerd."

The game was rather uninteresting and despite the closeness of the score up to the ninth inning there was little excitement. In the ninth with the score 2 to 1 in Fargo's favor, the visitors fell unto Richardson and five hits with an error and a passed ball, netted five runs, four of which were earned. Richardson had pitched nice ball for the first eight innings. Kilroy for the visitors, did some high class twirling. He allowed only four safe hits, two of which were made by Robertson. The Brainerd boys injected considerable more enthusiasm into their work than the locals and were elated over the victory. The only features of the game were especially fine catches by Read and Spelley. Sullivan and Spelley, formerly with Winnipeg, played with Brainerd."

Cancer and Consumption Cured In Duluth.

These diseases cured by the Actinic or Violet Ray Light cure that has been used with great success in Europe and New York City. In the latter place hundreds are being treated daily by this wonderful light. Absolute cures are being effected and all who try it are benefited. The treatment consists in powerful rays of light from a 500 candle power lamp which are passed through condensing lenses and thrown on the affected parts. These rays of light destroy the germs of disease without injury to the healthy tissue. It quickly relieves the pains of cancer, the severe coughing in consumption and heals all running sores. It is absolutely painless. Already a number of Duluth and Superior people have been treated with astonishing results. For particulars address,

CORNER IN JULY OATS

JUDGE CHILTRUS ISSUES A RE-
STRAINING ORDER AT
CHICAGO.

IS A DECIDED SURPRISE

James A. Patten and Associates En-
joined From Continuing a Corner
in New July Oats and From Bid-
ding Up the Price or Calling for
Further Margins—First Time Shorts
Have Resorted to the Courts.

Chicago, July 31.—The ban of the
courts has been placed on the corner
in July oats. On application of Waite,
Thoburn & Co., one of the firms
heavily short in the July option, a
temporary restraining order was
granted by Judge Chiltrus in the up-
per court prohibiting James A. Pat-
ten and associates from continuing a
corner in new July oats and from
bidding up the price of the cereal or
calling for further margins. This is
the first time in the history of the
Chicago board of trade that dealers
who are short have resorted to the
courts to assist them in a dilemma
like the present and the injunction
came as a decided surprise, although
drastic measures had been threatened
to prevent heavy loss. The injunction
runs against Carrington, Patten &
Co.; Patten Bros., and Bartlett, Fraz-
ler & Co. Default on 3,000,000 bushels
of short new July oats, law suits and
action by the board of trade are evi-
dently the results of the injunction.
Cornered and unable to secure new
July oats where to meet their contracts
the dealers who are short ap-
pear to have practically thrown up
their hands.

"We have nothing to do but to de-
fault," said one of the unfortunates.
"Those in control of the corner will
not sell, but tell us to go into the
pit and buy. If we should do so the
prices would go up into the clouds.
A dollar a bushel could easily be ex-
acted as the receipts of standard new
oats will not fill our contracts."
Three million bushels is said to be
the shortage in July oats. The great-
est part of this amount was sold, it
is said, to those in control of the mar-
ket at between 32 and 44 cents, so
there is more than 25 cents a bushel
profit in the deal for those on the long
side. Instead of the market collaps-
ing as the result of the adoption of
a 45 cent marginal price, established
by the board of trade, July oats ad-
vanced 3 cents and closed at 63 cents.
Indications were that the parties in
control of the market had become in-
dignant at the move of their op-
ponents and intended making the
bears settle all obligations in the pit.
Several hours after issuing the in-
junction the court made an amend-
ment so that the restraining order af-
fects only three seals comprising 35-
000 bushels of the 3,000,000 bushels
of oats, which the dealers who are
short cannot deliver.
An effort will be made to dissolve
the injunction before the opening of
the board of trade.

REBEL ARMIES JOINING.

Venezuelan Insurgents Will Probably
Attack President Castro.

Willemstad, Island of Curacao, July
31.—All eastern ports of Venezuela,
including Barcelona, have been aban-
doned by President Castro, all of
whose forces and resources are being
concentrated near La Victoria, which
is three days distant from Caracas,
and which is near the mountainous
district of Guario, where the advance
guard of revolutionists under General
Mendoza appeared some days ago.
General Mendoza's forces retreated,
however, to join General Matos' army,
which was in the neighborhood of El
Sombbrero, and advancing by forced
marches. Once these two forces ef-
fect a junction, it is expected that
they will take the offensive against
President Castro. The situation of the
government is far from clear, notwith-
standing that the revolution seems
lacking in unity and direction. Al-
though there is much opposition to
President Castro he still controls the
situation and a single defeat inflicted
to the revolutionists probably would
render him the arbiter of the coun-
try's future. The president intends to
leave Caracas for La Victoria Thurs-
day. The revolutionists have reap-
peared on the outskirts of Caracas.

MICHIGAN DEMOCRATS.

Impossible to Say Who Will Be Nomi-
nated for Governor.

Detroit, July 31.—At midnight Dem-
ocratic politicians who are trying to
predict who will be nominated for
governor still find they have a Chinese
puzzle before them. Duran, Sligh,
Hammel and Helme are talked of
most, while Davidson of St. Clair is
looked upon as a dark horse, not un-
likely to develop a strenuous boom.
Durand seemed to be gaining favor
among the delegates, but is not pre-
sent at the convention himself, but his
son who is here has merely thrown
out an intimation that his father could
now well refuse to make the run if
he was made the choice of the con-
vention. In the absence of a definite
assurance from Durand himself that
he would accept the nomination his
boom is making less headway than it
appears likely that it otherwise would.
The night session was devoted to the
election of a chairman of the state
central committee, Justin R. Whiting
being re-elected, and to discussions on
the order of business and on a plan to
allow those present to vote for ab-
sentees.

House of Commons Adopt an Im-
portant Section of Education Bill.

London, July 31.—After being sub-
jected to vigorous attacks from the
Liberal leaders, one of the most im-
portant sections of the government's
education bill was passed in the
house of commons by 230 votes to 189.
This small government majority was
greeted with prolonged cheers from
the opposition.

Previous to the vote Sir William
Vernon Harcourt (Liberal) made a
speech which was characterized by
all his old-time vigor. He declared
the present house did not reflect the
opinion of the country and that if the
government did not know this it
would soon learn it. The speaker
said Mr. Balfour, the premier, demand-
ed unconditional surrender, but that
he would never get it, that the educa-
tion bill was the negation of popular
control and a violation of every prin-
ciple of sound finance, whether im-
perial or royal. Sir William declared
the country did not love clericalism,
and that the new clericalism imposed
by the education bill was loved by the
country least of all. He said the Lib-
erals would fight the issue to the bit-
ter end.

A reference to the bye-election for
members of the house to represent
North Leeds which resulted in a Lib-
eral victory, elicited enthusiastic ap-
plause from the Liberals.

Lipton's Chicago Plant Damaged.

Chicago, July 31.—Fire in the plant
of the Thomas J. Lipton company at
the Union Stock Yards, caused a loss
of \$225,000. Only by the hardest
kind of work could the firemen confine
the fire to the building in which it
started. The entire contents of ware-
house B were destroyed, only the
walls of the building remaining.

Yukon Linemen May Strike.

Ottawa, Ont., July 31.—The op-
erators and linemen on the Yukon tele-
graph line from Ogilvie, near Dawson,
to Caribou Crossing have sent notice
to the minister of public works that
if their pay was not granted to them
they would go on strike. The matter
is now before Minister Tarte, who is
at Duluth.

Alabama Miners Contribute.

Birmingham, Ala., July 31.—The
Alabama United Mine Workers of
America have decided to send \$25,000
to the striking anthracite miners as
their July contributions. Hereafter
the monthly amount will be \$44,053,
the assessment according to member-
ship.

Unknown Negro Lynched.

Ocala, Fla., July 31.—An unidenti-
fied negro was lynched at San Antonio,
Pasco county, for criminal assault on
a white woman. After being identi-
fied by his victim he was strung up on
a tree in sight of the railway station
and his body riddled with bullets.

Two Miners Killed.

Birmingham, Ala., July 31.—In the
Sayreton mines near here a break in
the roof of one room in the mines
caused a great mass of rock to fall
and Camillo Castroe and Patrick
Bazani, two miners, were instantly
killed.

Striking Weavers Return to Work.

Philadelphia, July 31.—After a tie-
up of thirteen weeks the striking
tapestry weavers of this city have
compromised with their employers
and gone to work at an increase of 10
per cent over their former wages.

IN THE HANDS OF A MOB

ONE MAN KILLED AND MANY IN-
JURED IN A STRIKE RIOT
AT SHENANDOAH, PA.

TROOPS ARE ORDERED OUT

Trouble Arose While a Deputy Sheriff
Was Escorting Two Nonunion Men
Through the Strikers' Line of Pick-
ets—Business Man Killed, Four
Policemen and Over Forty of the
Rioters Wounded.

Shenandoah, Pa., July 31.—A reign
of terror compared to which the
scenes enacted during the riots of
1900 seem insignificant holds Shenan-
doah in its grasp. Since 6 o'clock
p. m. Center street, which is one of
the principal streets of the town, has
been in the hands of an infuriated
mob. Two of the borough policemen
were shot, one perhaps fatally.
Joseph Beddall, a leading merchant
and cousin of Sheriff Beddall, was
brutally clubbed to death and upwards
of a score of strikers whose names
at this writing could not be ascer-
tained were shot by policemen and it
is said that many deaths will result.
Sheriff Beddall arrived at Pottsville
a 9 o'clock with a force of deputies.
He has taken up his headquarters at the
Ferguson hotel, which at this
writing is surrounded by thousands of
people.

The trouble started about 6 o'clock
p. m., when Deputy Sheriff Thomas
Beddall attempted to escort two non-
union workers through the strikers'
lines of pickets. The workmen were
dressed in their street clothes, but
one of them carried a bundle under
his arm and this aroused the suspicion
of the strikers. The bundle was torn
from him and when it was found to
contain a blouse and overalls the man
was taken from the deputy and beaten
almost to death. In the meantime
Beddall opened fire on the mob, which
had gathered by this time and emptied
his revolver. Two of the shots took
effect, one man being shot in the leg
and the other in the foot. The deputy
and the other strike breaker were
now compelled to fly for their lives
and took refuge in the Philadelphia
and Reading railway depot. The
depot was soon surrounded by an
angry mob of 5,000 men which grew
more threatening and demonstrative
every moment. Joseph Beddall, a
hardware merchant, brother of the
deputy sheriff, was seen making his
way through the crowd in an effort
to reach his brother, but the mob,
divining that he was carrying am-
munition to those inside the depot,
seized him and

Beat Him With Clubs and Billies
into insensibility. He died en route
to the miner's hospital. Shortly after
this the entire borough police force ar-
rived on the scene and escorted the
deputy sheriff and his men to a loco-
motive, which had been backed into
the depot for that purpose. When the
mob realized that their prey was
about to escape they surrounded the
locomotive and the engineer was
afraid to move. In a few moments,
however, the police fired a volley,
dispersing the crowd for a brief period
and the engineer turned on full steam
and got away with his men. Stones
were now thrown thick and fast about
the heads of the police, whereupon
Chief John Frye gave the order to
fire. At the first volley the mob fell
back and several were seen to fall.
They soon turned and with revolvers,
stones and even a few shotguns they
charged on the little band of police-
men and made them fly for their lives.
The policemen turned in their flight
at short intervals, and fired at their
pursuers without effect. When the
Lehigh Valley crossing was reached a
passing freight train blocked the pas-
sage of the police, two of whom were
caught and brutally beaten. One of
them, Stacey Yacopsky, will die.
It is estimated that upwards of
1,000 shots were fired and the wonder
is that more fatalities did not result.
More than twenty strikers, all of
whom were foreigners, were shot and
at least two of them will die.
The doctors of the town dressed
the wounds of nearly forty strikers,
all of whom were foreigners, whose
names could not be ascertained. It
is known at midnight that four of
the six policemen were shot. Chief
Frye received a slight wound in the
hand; Yacopsky was shot in the neck
and head and may die; Ringheiser
was shot in the hand and back, not
serious; Lauritas was shot in several
places and cannot recover.

TROOPS CALLED OUT.

Governor Stone Sends State Militia
to Shenandoah.
Harrisburg, Pa., July 31.—Governor
Stone has ordered the Eighth and
Twelfth regiments and the Governor's
troop of the national guard of Penn-
sylvania, in command of General J.
P. S. Gobin, to proceed immediately to
Shenandoah. General Gobin left here
shortly after midnight in a special
train and it is expected that all the
troops, the combined strength of
which is 1,500, will be on the ground
by daybreak.
The governor has been kept fully
advised of the situation by Private
Secretary Gerwig ever since the call
for troops of Sheriff Beddall, of
Schuylkill county.

More Minneapolis Indictments.

Minneapolis, July 31.—Two more
grand jury indictments were returned
Tuesday afternoon, one against Col-
onel Fred Ames and "Red" Cohen
jointly, and one against Mayor Ames
and Irwin A. Gardner jointly. The
indictment against Colonel Ames and
"Red" Cohen was that of extortion
from Addie Mills, in the sum of \$15
on Feb. 4. The one against Mayor
Ames and Irwin A. Gardner was for
receiving \$15 on Dec. 11 last from
Ida Elliott.

cian at Monroe City. A resident of
the town set out shade trees for the
doctor. A short time later the physi-
cian was called to attend the mother-
in-law of the man who had set out the
trees. The old lady died, and the physi-
cian presented his bill. After paying it,
the citizen thought of the trees and
made out and presented a bill for them.
"But the trees died," protested the
doctor. "So did my mother-in-law,"
retorted the other man. The doctor
paid the bill.—Kansas City Journal.

Firmness.

Jones—Dear me! You say you often
lay down the law to your wife. How
do you go about it?
Bones—Why, all you need is firm-
ness. I usually go into my study, lock
the door and do it through the key-
hole.
